Part fable, part classic adventure in the tradition of Jules Verne, H. G. Wells and Méliès, the tale is told in nearly 200 full-page, wordless images in a variety of media from pencil, pen and ink, ink wash and paint that lovingly evoke the artistic styles of its period setting, and classic illustrators from Charles Dana Gibson and Toulouse Lautrec to Edward Gorey. The word "lunatic" derives from Latin, meaning "of the moon", or "moonstruck" and in this sense it describes the protagonist of this story: from infancy she develops a magical almost intimate relationship with the moon itself.

**Stanley Kubrick Produces**

James Fenwick  
 Pub Date: 12/18/20  
 \$32.95 USD  
 230 pages

**Summary:** *Stanley Kubrick Produces* provides the first comprehensive account of Stanley Kubrick's role as a producer, and of the role of the producers he worked with throughout his career. It considers how he first emerged as a producer, how he developed the role, and how he ultimately used it to fashion himself a powerbase by the 1970s. It goes on to consider how Kubrick's centralizing of power became a self-defeating strategy by the 1980s and 1990s, one that led him to struggle to move projects out of development and into active production.

Why is *Star Trek's* computer coded as female, while HAL 9000 in *2001: A Space Odyssey* is heard as male? By examining how gender is built into these devices, author Liz W. Faber explores contentious questions around gender: its fundamental constructedness, the rigidity of the gender binary, and culturally situated attitudes on male and female embodiment.
